The **M.V. Via Australis** is designed specifically for cruising the waters of rugged Southern Patagonia—Chile’s glacier-studded fjords and Argentina’s Tierra del Fuego. This small ship can cruise into remote ports and secluded inlets inaccessible to larger ships and provides guests with the intimacy and personal service only a small cruise ship can offer.

Each of the 64 ocean-view cabins features a large picture window, one double bed or two twin beds, private bathroom with shower, individual climate control, safety box and hair dryer. The ship’s inviting Patagonia Dining Room offers international and Patagonian specialties amid magnificent panoramic views. Early-risers’ coffee, buffet breakfast, buffet lunch, afternoon tea and dinner are served daily in single seatings. Complimentary regional wines are served with lunch and dinner. The inviting public areas are tastefully appointed and include the spacious Yámana Lounge, featuring a comfortable library, game room and program of enriching lectures; the panoramic Sky Lounge; an observation deck; two bars; and a gift shop.

The ship’s English-speaking crew provides friendly Chilean hospitality. A team of multilingual expert naturalists will share their in-depth knowledge about the region’s history, natural wonders and wildlife. The ship is equipped with Zodiac landing craft for excursions. There is a doctor on board. The ship maintains the highest international safety standards and is fitted with the latest technology to meet environmental regulations and leave minimal impact on the navigation routes.
